

Fleet Underwriting Surveys

WE'RE THE NATION'S LARGEST RISK CONTROL PROVIDER FOCUSED EXCLUSIVELY ON THE INSURANCE INDUSTRY.

Preferred Reports, LLC handles Fleet/Trucking Underwriting Surveys in all 50 states. Depending on the level of detail needed, we can report on:

- **DOT Compliance**
- **Safety Programs**
- **Pre-Employment Screening**
- **Fleet Condition**
- **Vehicle Maintenance**
- **Driver Training**
- **Return to Work Programs**
- **...and much more**

We offer a 30 day or less turnaround and your completed inspection data is always available in our secure data warehouse. We customize every report to meet your specific needs, so you don't waste time and storage space on trivia.

Our goal is to give your underwriters actionable intelligence, not fluff.

Methods

Your information, your way

With the help of your underwriting guidelines, our reports can be front loaded, meaning your underwriter can quickly scan the important things without having to read the entire report.

Preferred's risk scoring system can also provide you with an overall risk score, based on criteria you set, so policies can be triaged, allowing you to put attention where it is needed. This saves time and improves efficiency for your UW department.

Fleet/Trucking reports can include items such as a DOT SAFER review, analysis of the current driver safety program, an overview of the company structure as well as a review of past losses. We can examine driver and vehicle files. We can also look at the fleet itself and provide photos of all the scheduled vehicles. Our consultants can verify VIN numbers, mileage, and overall condition.

We can survey any kind of fleet including over the road trucking, delivery, courier, tow trucks, emergency services, and just about anything else.
